Catarrhal Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion, of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever. Many cases of deafness are caused by Catarrh which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that can not be cured by Hall's Catarrh Cure. Circulars free. All Druggists 75c.

"Good morning! Have you seen The Courier? Evansville's best paper."

Children smile when they take

FOLEY'S HONEY-TAR

1st. It tastes good.
2nd. It makes them feel good.
3rd. It will turn a distressed, fretful child into a happily smiling one.
Because it is just what children ought to have for feverish colds, coughs, croup, "snuffles" and heavy, wheezy breathing.
It puts a healing, soothing coating on a feverish, inflamed, tickling throat, and it stops coughs quickly. It is good for croup, too.
It contains no morphine, chloroform, or other drug that you would not like to give to young children, and it is just as effective for grown-ups.

Stomach Trouble.

"Before I used Chamberlain's Tablets I doctored a great deal for stomach trouble and felt nervous and tired all the time. These Tablets helped me from the first and inside of a week's time I had improved in every way," writes Mrs. L. A. Drinkard, Jefferson City, Mo.

Born to Mr. and Mrs. Allie Sermersheim last Saturday a sweet little girl, and now Allie will have to write more insurance.

A girl of Mr. John Marks, aged about 8 years, died Wednesday about noon. The funeral was held at St. Joseph's church Thursday at 4 p. m. The bereaved parents have the sympathy of all.

John Alles Dies.

John Alles, for many years one of the leading furniture manufacturers of the county, died Saturday afternoon aged about 70 years. He was the son of Jacob Alles who was in the furniture business on the public square from 1850 to 1885. John was one of the original owners of the old Jasper Furniture Company, [now Jasper Desk Co.] it was then controlled by John Alles and the late Frank Joseph. He was twice married and leaves a widow, sister and brother to mourn his death. His only child died in infancy. He was buried at St. Joseph's Monday, Dec. 23. May he rest in peace.

Few Escape.

There are few indeed who escape having at least one cold during the winter months, and they are fortunate who have but one and get through it quickly and without any serious consequences. Take Chamberlain's Cough Remedy and observe the directions with each bottle, and you are likely to be one of the fortunate ones. The worth and merit of this remedy has been fully proven here are many families who have always used it for years when troubled with a cough or cold, and with the very best results.

She leaves her husband and three small children, besides her father, mother, sisters and brothers to mourn her death. The remains were taken to Booneville Friday for burial.

AVOIDING SOFT CORN LOSSES

How Proper Management Enables Corn Crop to Get Ahead of the Frost.

An ear of hard corn may break, but it never bends. An ear of soft corn bends easily, but it never breaks. Sometimes water may even be wrung out from such corn.

A "soft corn year" is disastrous. The corn can't be stored, and can't be sold. It must be fed at once with the result that hundreds of carloads of fat

hogs and fat steers must later on be marketed at the same time—to the disadvantage of all concerned.

But—why grow soft corn, when a crop of hard corn costs less per bushel?

Corn is planted when the soil is still cold, and just after the soil has been leached by the winter's rains. Available plant food in the soil is lacking. The reserves in the seed are soon exhausted, and then the plant "hangs fire"—makes no growth, remains small, spindling, and sickly—until such time as the weather warms up and soil plant food begins to become available. Available plant food, especially available phosphoric acid and ammonia, when applied in fertilizer have wonderful effect in saving time—in getting growth started early in the season.

RED CROSS WOMEN CITED FOR BRAVERY

American women at Eprenay, south of Rheims, have been cited in an order of the day for remaining at their posts in an American Red Cross canteen under bombardment for six days. Throughout this battle they continued to feed and care for wounded.

Besides such incidental benefits as the improvement in figure and health that we've reaped from our meatless, wheatless days, think of the fun we've had out of them—the new crop of jokes, jibes, topical songs and cartoons to replace the mother-in-law joke and the boost to our reputation for ready humor!

Eighty millions of men can't be taken out of production for four years without lasting losses of yield. It will be years before their fields recuperate, farms are restored and herds restocked. Save food.
